REVI POLES

**Designed to last
No matter the conditions**

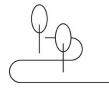

Classic in character yet engineered for long-term performance, REVI POLES feature a seamless one-piece construction that enhances durability while maintaining a refined architectural presence. Manufactured from shockproof steel-expansive-resin composite materials, they are resistant to corrosion, UV exposure, and environmental wear.

Moulded color throughout the material eliminates the need for painting or ongoing maintenance, while integrated Class II insulation supports safe and reliable outdoor operation. Available in multiple heights and supplied with a ground fixation cage for secure installation.

Applications: civic spaces, pedestrian streets, historic and residential environments
