

# ARCU POLES

**Designed to last  
No matter the conditions**

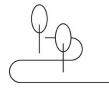

Combining traditional styling with advanced composite technology, the ARCU collection is designed to enhance public spaces with both durability and architectural character. Its seamless one-piece construction improves structural integrity while maintaining a timeless visual language.

Manufactured from shockproof steel-expansive-resin materials, the collection resists corrosion, UV exposure, and environmental deterioration without requiring maintenance or repainting. Available in multiple sizes and decorative configurations.

Applications: plazas, parks, heritage districts, pedestrian environments

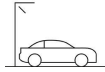

Park & Garden

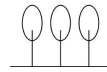

Hiking Trails

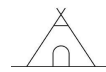

Places

Car Park & Rest

Pathways

Campsites
